

MCM 2017

International Conference on Monte Carlo Methods and Applications

July 3-7, 2017 – Montréal, Canada

MCM is a mathematically-oriented biennial meeting devoted to stochastic simulation and Monte Carlo methods in general, from the theoretical viewpoint and in terms of their effective applications in different areas such as finance, statistics, machine learning, computer graphics, computational physics, biology, chemistry, and scientific computing in general.

Organizer

Pierre L'Ecuyer, Université de Montréal

Contributions

Proposals for contributed talks will be selected based on one-page abstracts, to be submitted by **March 1, 2017**.

Plenary Speakers

Steffen Dereich	WWU Münster, Germany
Paul Dupuis	Brown University, Providence, USA
Mark Girolami	University of Warwick, UK
Emmanuel Gobet	École Polytechnique, Palaiseau, France
Aicke Hinrichs	Johannes Kepler University, Linz, Austria
Alexander Keller	Nvidia Research, Germany
Gunther Leobacher	University of Graz, Austria
Art B. Owen	Stanford University, USA
Christian P. Robert	Université Paris-Dauphine, France
